WISMER APPLE.

WISMER DESSERT APPLE—Originated in Northern Ontario, Canada. Tree iron clad, hardier than Wealthy or Duchess, and fully as productive; has withstood the severe winters of that northern climate. Size, medium to large, beautifully colored with yellow, shaded bright red in stripes and blotches—very handsome. In quality “Wismer’s Dessert” excels any apple ever originated. Subacid, mild, delicious, being entirely distinct from the flavor of any other apple, resembling that of a luscious ripe pear in its melting juiciness. Season, December to April.
